

Imagine that you and your friend are doing a school project “Shopping”. You have found some photos to illustrate it but for technical reasons you cannot send them now. Leave a voice message to your friend explaining your choice of the photos and sharing some ideas about the project.

In 2.5 minutes be ready to:

- explain the choice of the illustrations for the project by briefly describing them and noting the differences
- mention the advantages (1-2) of the two types of shopping
- mention the disadvantages (1-2) of the two types of shopping
- express your opinion on the subject of the project – which way of shopping you prefer and why

**Hi Mary, how are you doing? I have found some photos for our project “Shopping” and I’d like to say a few words about them. Let me describe them for you. In the first picture one can see a happy family standing in the aisle of a supermarket. They’ve got a basket full of groceries in front of them. There is a woman sitting at home in front of her laptop in the second picture. She’s holding a credit card and smiling.**

**Talking about the differences, the key difference is that in the 1st picture the family is shopping in a supermarket, while in the 2nd picture the woman is shopping online.**

**I believe that the two types of shopping presented in the pictures have their advantages and disadvantages. As for offline shopping, its biggest advantage is that you can spend quality time with your family while going around the supermarket shopping for groceries. Talking about online shopping, one of its advantages is that you don’t have to carry heavy bags home as you can get your groceries delivered home.**

**Now I will discuss the disadvantages of** the two types of shopping. Offline shopping can be quite time-consuming as you have to spend time on the way to the shop and back home. While shopping online, if you are not careful enough your credit card details might be stolen and you can lose your money.

**Personally,** I prefer online shopping **because** I hate going to regular shops. I dislike these crowds of people that fight for discounts and their place in the queues. When I shop online, there's only me in the room so I do not suffer from any stress.

**That's all from me now. Please, get in touch with me and tell me what you think about these photos.**
